Career Objective

Enthusiastic fresher seeking an opportunity in software development where I can apply my programming skills, improve my technical knowledge, and contribute effectively to the team.

Education

Sahyadri College of Engineering and Management

2024 – 2027

Bachelor of Engineering in Computer Science

CGPA: 6.89

Projects

PrepWise AI - AI based personalized mock interview system

- We came up with a smart mock interview system that works automatically to change the level of challenge of the question according to how the candidate answers.
- Combined NLP code to analyze responses, give instant feedback and assess skill deficiencies.
- Implemented resume-based question generation by analyzing candidate CVs to create personalized and role-specific interview simulations.

Student results managment System

JavaScript, HTML5, CSS3

- Created a Student Result Management System that has role based access control in order to provide student records and sensitive academic information with secure management.
- Installed input validation and secure authentication controls to avert unauthorized access and mitigate the common vulnerabilities.
- Created a database that had data integrity measures and implemented simple security best practices to prevent data manipulation and leakage.

Internship

Agamy Cyber Tech

Jan 2024 – Apr 2024

Junior Security Analyst Intern

- Gained hands-on experience in security monitoring, threat analysis, and vulnerability assessment.
- Assisted in identifying potential security risks and supporting incident response activities.
- Applied cybersecurity best practices to improve system protection and operational security.
- Collaborated with security teams to maintain compliance with organizational security standards

Technical Skills

Programming Languages: Python, Java, JavaScript, HTML, CSS

Cybersecurity Skills: Security Monitoring, Threat Analysis, Vulnerability Assessment,

Frameworks & Libraries: React.js, Next.js

Databases: MySQL, MongoDB

Tools & Platforms: Git, VS Code, Jupyter Notebook, Linux (Basics)

Additional Information

- Strong interest in Cyber security, AI-driven security solutions, and secure software development.
- Hands-on experience with security concepts including threat analysis, vulnerability awareness, and security best practices.
- Passionate about learning cloud security, and real-world security operations.
- **Languages:** English, Kannada, Hindi, Urdu
